

# Dental benefits to help make care more convenient

## Connect your employees to a world of care

Give your employees more to smile about – with dental care options built for convenience. Most of our plans offer access to convenient care options designed to help move employees' dental health forward – available at no additional cost to you.

Give your employees 24/7 access to a licensed dentist – via phone or web<sup>1</sup> – to help them take care of an array of oral health issues.

Let the dentist come to your workplace, making it easier for employees to use their dental benefits and help improve their overall health.

## Dental coverage centered around employees' needs
